

Working With Mrunal Thakur

Prepared by Team Krishtian

Dear Ms. Thakur and Team,

Team Krishtian offers complete Talent & Business Management. We take full ownership of a public figure's digital and business presence, managed to a consistent, professional standard. We do not make promises; we demonstrate. We are also available to take on additional positions and responsibilities as the engagement requires.

Core Functions

- **Business Development.** Identifying, pursuing and securing new opportunities for growth, visibility and revenue.
- **Brand Building.** Shaping and protecting a distinctive, consistent and premium public image across every channel.
- **Deal Coordination.** Sourcing, structuring and coordinating brand, endorsement and partnership agreements end to end.
- **Strategic Planning.** Setting clear objectives and a long-term roadmap for sustained career and commercial growth.
- **Social Media Management.** Strategy, content, scheduling, community engagement and authentic audience growth.
- **Website & Digital Presence.** Maintaining and expanding the official platform as a polished home for the audience.
- **Business Communications.** Managing the business inbox so every brand, press and partnership enquiry is handled promptly.
- **Brand Partnerships.** Approaching and managing brand and endorsement opportunities with professionalism.

Open to Additional Positions

Beyond the functions above, Team Krishtian is available to serve in other positions and roles as needed — operations, coordination, content, partnerships and related responsibilities — adapting to the requirements of the engagement.

A One-Week Trial

We are confident in the quality of our work, so we offer a complimentary one-week trial with no obligation. This allows the results to be assessed on their own merit before any longer-term commitment. Throughout, you remain fully in control — nothing is published or agreed without your approval.

We would welcome a professional conversation.
